

As previously announced, the June field trip on **Saturday June 25**, will be a studio model shoot at professional photographer Paul Markow's studio here in town. We had a very successful field trip to Paul's studio in 2009. For those of you not familiar with Paul's work, below is link to his site.

<http://paulmarkow.com/artist.asp?ArtistID=8198&AKey=N7FHNS24>

Paul will lead half day two workshops with a small number of attendees (max of 7), one from 8am-12pm in the morning and one from 1pm-5pm in the afternoon. This is how we did the workshop with Alan Lowy last summer and it worked much better with a smaller number of people.

The workshop will focus how to get different looks with several different lighting techniques. Paul will have a model there and we may have a prop such as a motorcycle or car as well. That depends on finding a suitable prop. If you know of one we can use for free, let me know.

The cost for the session is \$125 per person. This includes the cost of the model.

Please let me know ASAP if you are interested in attending this workshop/fieldtrip. This fieldtrip had a cap of 20 in 2009 and filled up quickly and we had a waiting list of members who never got in so let me know ASAP if you are planning on attending.

A non-refundable deposit of \$50 will hold your space. Spaces will be held in the order that I receive the deposits.

Please mail deposits to me at:
