

PCC Members

As was announced at the Club meeting on Saturday this month's Field Trip is to the Botanical Garden located at 1201 N. Galvan PKwy, Phoenix, AZ (near the Phoenix Zoo). The Gardens open at 8:00. The flowers will need some time in the sun to open. The wildflower area is located in the NW area of the garden. Ask a volunteer and they will direct you to the area.

The butterfly pavilion is also available and I believe it opens at 9:30

If you are not a member the admission is \$15 and additional \$3.50 for the butterfly area. If you are a member then you know these are free.

There is also an exhibit of various cactus photographs in the educational building.

Please note that it will probably be very crowded at the garden especially with the weather predicted and it being a Sunday so be prepared for a lot of people.
